

# Accessing eduroam using an Android Pixel Device

BE WHAT YOU WANT TO BE

[cqu.edu.au](https://cqu.edu.au)

**eduroam** is a service that enables CQUniversity students and staff to connect to a secure wireless network while on campus and when visiting other educational institutions around the world. This makes it possible to travel (for work or study purposes) and connect to the internet.

You can find out where eduroam is available in Australia at:

<https://admin.eduroam.edu.au/participants>

1. Click the “**Settings**” icon from the list of all applications on your Android Pixel device.
2. Select the “**Network and Internet**” option.
3. Select the “**Wi-Fi**” option. *The phone will search for available wireless networks.*
4. Select “**eduroam**” from the list of available networks. *eduroam is available at most Australian Universities.*
5. When prompted select the following options to configure **eduroam**.  
 EAP Method: **PEAP**  
 Phase 2 Authentications: **MSCHAPV2**  
 CA Certificate: leave as default (**Use system certificates**)  
 Online Certificate Status: **Do Not Verify**  
 Domain: **cqu.edu.au**

6. Enter your **CQUniversity email address** in the field titled **Identity** as described below.

**Student:** joe.bloggs@cquemail.com or s1234567@cquemail.com **Staff:**  
 jane.bloggs@cqu.edu.au or j.bloggs@cqu.edu.au

7. Enter your CQUniversity password in the field titled **Password**.
8. Tap **Connect**. You are now connected to eduroam on your Android Pixel device.
