Alumni

Do you know a graduate who is doing something noteworthy?

Put them forward to be considered for an alumni award.

CQUni takes great pride in the achievements our alumni are making throughout the world. Each year, the CQUniversity Alumni Awards recognises CQUni graduates who are making outstanding contributions to their industry or community.

The type of contributions we recognise varies: it can be through leadership/innovation in business, charity/volunteerism, research and more.

If you know of an alumnus making outstanding contributions to their industry, community, or the University please forward their name to the AR team, so they can be considered for an alumni award.
