

# HEALTH AUTHORITY COMPLIANCE

## PREPARATION FOR PLACEMENT

As a part of workplace health and safety legislated obligations, State and Territory Government Health Departments must ensure that students are adequately orientated to their facilities. Health Authority Compliance mandatory checks are determined by each State or Territory Government Health Department. Health Authority Compliance may include online orientation modules, checklists, or other documentation completed prior to placements.

## REQUIREMENT

You are required to provide evidence in relation to the completion of the relevant health authority compliance requirements that apply for the state or territory where you will undertake placement.

Students located in Queensland must complete the Queensland Health compliance requirements. For students who reside outside of Queensland, the WIL team will confirm the health authority requirements that will apply for your course which will be visible in your Sonia placement system profile.

The approved form of evidence (what to submit in Sonia) is to be submitted before the closing date that is designated for the WIL placement unit. It is mandatory for students to maintain current evidence for the duration of their course.

**VALID:** 1 year, and some requirements are per placement.
