

VIRTUAL OPEN DAY - SATURDAY, 27 AUGUST 2022 9 AM – 12 PM AEST

TIME	LIVE WEBINARS
10.00 am	Future You at CQU Get to know more about us and how we can support you to be what you want to be. We'll talk you through your next steps.
10.30 am	Nursing Learn more about how our nursing courses are delivered. Using the latest in learning technology combined with simulations, clinical experience and enhanced work-integrated-learning we prepare you for a rewarding career in nursing.
11.00 am	Medical Science (Regional Medical Pathway) Listen to Head of Course Sonia Saluja speak about our innovative medicine program, providing students a professional entry pathway into the University of Queensland's regionally based Doctor of Medicine program. Sonia will discuss entry requirements and ATAR adjustment schemes.
11.30 am	Psychology Learn about the transferable nature of our psychology courses and how the degree applies to a diverse range of careers or a pathway toward a career as a clinical psychologist.
11.30 am	Engineering Hear about the CQU engineering experience and how our strong industry connections lead to strong graduate employment outcomes.
12.00 pm	Diagnostic Imaging Be inspired by our expert teaching team as they talk you through our Medical Sonography, Echocardiography and Medical Imaging courses. Hear how our courses combine the latest learning technology with simulations and extensive work-integrated learning opportunities to enhance your employment outcomes.

Teaching

12.00 pm

Learn more about our teaching courses and the reward career opportunities available in early childhood, primary and secondary teaching.

Getting Started at CQU

12.30 pm

Picked out your future career or the course you want to study? Join us as we walk you through your next steps including how ATAR/selection rankings work, how to apply, fees and all the steps in between you need to know to be what you want to be.

ON DEMAND

Aviation

Hear how you can launch your career as a pilot or airline or airport operations manager with our aviation course. Our Aviation Head of Course will take you our uniquely designed courses designed to equip you with the theoretical knowledge and flight hours you need.

High School Early Study Programs

Did you know you can get ahead while you're still at high school and complete a uni course or a TAFE qualification? Find out more!

Law and Criminology

Join us to find out what simulations, real project work and enhanced work-integrated-learning opportunities the Bachelor of Law and Bachelor of Criminology will offer.

Paramedic Science

Join this webinar to hear from our paramedic science lecturers about our Bachelor of Paramedic Science. Learn from qualified paramedics and benefit from extensive simulations, clinical experience and work placements within the industry that allows you to put your learning into practice and work closely with paramedics to respond to real-life emergency situations.

Parents Webinar (Year 12)

It's exciting but nerve racking being a parent of a year 12 as they decided what they are going to do beyond high school. But don't worry we are here to help. Join us and we will take you through the transition from high school to uni including choosing a course, entry requirements, how to apply and more.

Podiatry

Are you curious to learn about what a podiatrist does? Podiatry is more than just feet – it includes prevention, diagnosis, treatment and rehabilitation of medical and surgical conditions of the feet and lower limbs as well. Learn more about this rewarding career and where it can take you.

Speech Pathology

Discover the reward careers our Speech Pathology students go onto. Learn more about valuable skills you will develop studying Bachelor of Speech Pathology and the long-life impact you will have working with people of all ages who have communication or swallowing difficulties.

STEPS

STEPS (Skills for Tertiary Education Preparatory Studies) is a free, Centrelink approved enabling course designed to help you acquire the necessary skills, knowledge and confidence to gain entry into university. Learn more about how STEPS can help you achieve your study goals.
